:Things I want to mention

GENERAL Please run the webpage in the terminal by writing "yarn start" it runs.1
.way better

There is a problem with the shopping cart that does not let me see the.2
products added to the cart, but you see that the amount increases when you add
something to the cart, I tried to fix the problem several times and no matter
.how much I tried, it simply does not show me the products I bought

Thank you for reading and reviewing my React built website and I do hope very
(: much that you like it
